

ATLAS/AES-Addon for Export authorizations

Do you deliver products abroad?

Do you want to optimize the handling of your export licenses?

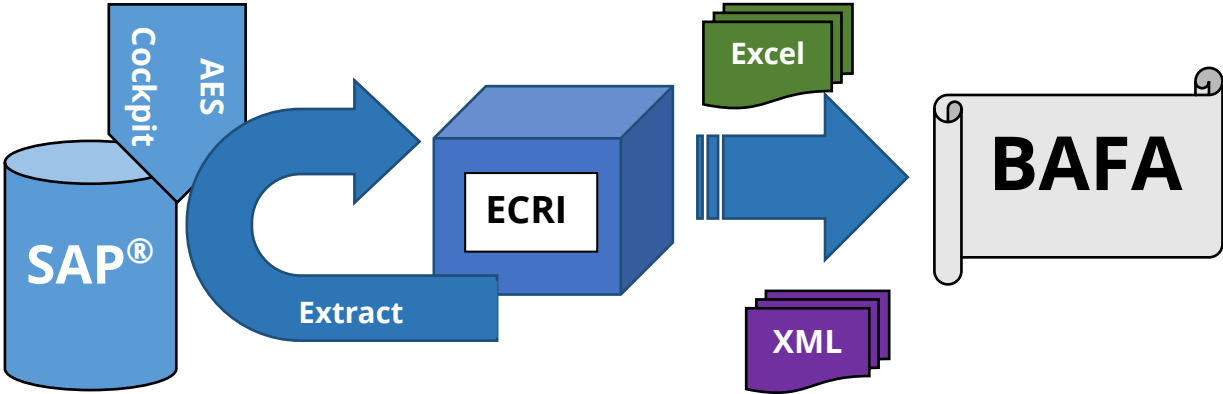

Legal background

Due to various regulations of the European Community, every exporting company is obliged to produce export licenses for certain goods. In particular, so-called "dual-use goods", ie objects that can also be used for non-intended purposes, are affected. To be able to trade in such goods you need export licenses, these are issued in Germany by the BAFA. If the regulations are ignored, sensitive money or imprisonment threatens!

The CSF Group offers you an extension for your ATLAS / AES cockpit to simplify and speed up your notifications of Collective Export Authorizations (SAG) and General Approvals (AGG) for the Federal Office of Economics and Export Control (BAFA). The solution ATLAS addon for export licenses - Export Control Report Interface (ECRI) automatically filters out processes with General Export Authorizations out of the export transactions which have to be transferred to BAFA (Federal Office of Economics and Export Control). The result is transmitted as an XML file to the BAFA portal (ELAN-K2).

Functionality

Since manually extracting the records for goods that require an export permit from BAFA is a major effort, the CSF Group offers you an extension for your ATLAS / AES cockpit for SAP® systems that will help you deal with this quickly and uncomplicated. The automated process for handling export licenses is shown in the following diagram.

The Export Control Report Interface (ECRI) assigns BAFA's General Technical Approvals to the various technical names in your ATLAS system. The newly developed report extracts these automatically from the AES tables, converts them and then makes them available as an Excel or XML file. The upload of the XML file then takes place manually on the BAFA portal.

The following figure shows an example of the selection screen.

Meldung an AGG's aus Atlas an das BAFA

Parameter

Allgemeine Selektion

AES-Nummer	<input type="text"/>	bis	<input type="text"/>	
Belegart	<input type="text"/>	bis	<input type="text"/>	
Interner Status	<input type="text"/>	bis	<input type="text"/>	
Angelegt am	<input type="text"/>	bis	<input type="text"/>	
Empfangsland	<input type="text"/>	bis	<input type="text"/>	

Zuordnung Unterlagentyp/-qualifier zu AGG

Relevant für die Selektion und die Ermittlung AGG

UNTTY	UNTQU	AGG
3LLC	A19 ->	AG19
3LLC	A20 ->	AG20
3LLC	A21 ->	AG21
3LLC	A22 ->	AG22

And here the output:

Unt.-type	Unt.-qual.	Name Empfänger	Stra.Empf	Ort, Empf	Pstz, Empf	Land, WE	Warenbezeichnung	Dat.	Sta60	Detail	Wert	Fakt.Menge	ME	AGG
X002	A09	Microsoft Software Development Inh. Bill Gates	5th Avenue 123	New York	12345	US	Teleskop- und Stabantennen für ...			DETAIL	1000			AG9
X002	A09	Microsoft Software Development Inh. Bill Gates	5th Avenue 123	New York	12345	US	Teleskop- und Stabantennen für ...			DETAIL	1000			AG9
X002	A12	Microsoft Software Development Inh. Bill Gates	5th Avenue 123	New York	12345	US	Tastatur, englisch international / ...							AG12
X002	A12	Microsoft Software Development Inh. Bill Gates	5th Avenue 123	New York	12345	US	Tastatur, englisch international / ...							AG12
X002	A12	Microsoft Software Development Inh. Bill Gates	5th Avenue 123	New York	12345	US	Tastatur, englisch international / ...							AG12

The result can be issued in the Excel- or XML-format

Our services

- Practice-oriented advice
- System integration into your existing SAP® system landscape
- User documentation and training
- Support during commissioning
- ECRI extension for ATLAS / AES cockpit

What else distinguishes us ...

Due to our many years of experience in the area of foreign trade law, the safe handling of sensitive data is a matter of course for us. With us you rely on a practice-oriented implementation in your company!

Distribution

For sales questions about the products, solutions and services of the CSF Group, please contact CSF Industry Consulting.
